SUMMARY

I am a software developer with a bachelor's degree in Computer Engineering. I have experience in various programming languages, including JavaScript, Typescript, Java, Python, C++, and PHP. I've worked on software development projects for different companies.

SKILLS

Languages: JavaScript, Typescript, Java, Python, C, C++, PHP.

Technologies: Matlab, SAS Products, LOGO, Node.js, AWS

PROJECTS

Typescript	**Trip Planner**	https://github.com/demirelfth/TripPlanner

A trip planner implemented with using Deutsche Bahn's open API.

Typescript, Java	**Employee Management System**	https://github.com/demirelfth/employee-management-system

This project developed backend-side with Spring Boot, frontend-side with Angular.

Java, Thymeleaf	**Student Management System**	https://github.com/demirelfth/student-management-system

Student Management System with Spring Boot and Thymeleaf.

EDUCATION

09/2013 - 09/2023 **Computer Engineering**   Istanbul Technical University

Bachelor's Degree in Computer Engineering

EXPERIENCE

02/2023 – Present **Backend Developer**   Nişancı Software

- Project of Nişancı Sotware is YEBEA and it is about meal delivery service like "Yemek Sepeti". I am working as backend developer at Nişancı Software.
- Implemented YEBEA's backend with javascript and Node.js.

```
Node.js  /  Javascript  /  PostgreSQL
```

03/2023 – Present **IT Specialist**   Metfamer AŞ

- Worked on LOGO product tables and background information.
- Windows Server System with access point, firewall, storage, NAS, VMware researched and learned.
- Worked as designer with Adobe Illustrator, Adobe Photoshop, CapCut.

```
LOGO  /  Windows Server 2022  /  T-SQL  /  .Net
```

07/2019 – 10/2021 **Software Engineer**   Sade Yazılım ve Danışmanlık

- Implemented interface-FWI (Federation Server Web Interface)- with idea of AWI. However, they have different architectures.
- Implemented interface-AWI (Angular Web Interface)- for clients to use SAS Products' abilities without develop any SAS Code. Angular and Bootstrap used for frontend, Nodejs used for interlayer and PostgreSQL used as database.
- Worked as Data Management Specialist,therefore researched and learned SAS Code and also SAS products like Dataflux Data Management Server, SAS Federation Server.

```
Angular  /  Typescript  /  Javascript  /  Node.js  /  SAS Products  /  PostgreSQL  /
Bootstrap
```

02/2018 – 11/2018 **Full-Stack Developer**   Hyplit

- Project of Hyplit was about social network like "Wattpad". I worked as full stack developer at Hyplit.
- Developed this project with HTML, CSS, Bootstrap, Javascript for frontend and PHP for backend and MySql as database.

```
PHP  /  Bootstrap  /  MySql
```

LANGUAGES

English - B2, **Turkish** - native
